Our Backstory

Founded in 2002, Anda Global Management is a total solutions construction management company bringing forth all-encompassing civil construction management solutions from start to finish from pre-construction to delivery. With 22+ years of direct, hands-on experience in the field, fast-tracking takes centre stage in our services while ensuring the fulfilment of your needs and expectations, on budget and on time. Guided by its commitment to solidify its position as a leader in Civil Construction, General Building, and Infrastructure Development. Our impeccable strategy & 21 years of experience have equipped us for sustainable success. we introduce you to an ultra-modern definition of the industry one that's customer-centric, results oriented, and tailored to your project. With us, you get a glimpse of luxury service, regardless of the size of your project, all with the support of our team members, who are the driving force behind our success

Our Mission

With every construction project we make it our mission to build, create & innovate as if it is our very own. With every day of operations, Anda Global lays the stones to introduce an ultra-modern definition of the civil construction industry; one that's entirely designed for clients, result-oriented, and provides personalised solutions for a lap of luxury for every client, regardless of the size of the project at hand. With Anda Global, no project is too substantial or too small scale. Our mission is to provide customers with a hassle-free, one-stop construction solution at affordable rates. Experience convenience and quality like never before.

Foresight Vision

We at Anda Global aspire to become lifelong construction partners for every client we do business with, including the customer, design professionals, sub-contractors, and tradesmen, through our sustained provision of trailblazing construction & engineering services. By heightening our capacities and capabilities, we aim to showcase the power of contracting engineers when it comes to applying technical expertise to practical problems, not only in South Africa but Africa at large. Introducing African Engineering Skills to the world at large, We know the immense potential of African engineering skills. This will be achieved by empowering our team members and fostering continuous learning, we aim to be at the forefront of engineering innovation in the southern hemisphere

With the aim to drive future economic empowerment & as a catalyst for change, we hope to create opportunities, promote inclusivity, and uplift marginalised communities. Through partnerships, support for local businesses, and training programs, we empower individuals and drive sustainable economic growth.

Our Objectives

Supporting Local Government Initiatives:

Anda Global Management aligns with the Local Government Integrated Development Plan and Economic Development strategies. We play our part by creating more job opportunities and contributing to the overall economic growth and prosperity of the region.

Leading the Way in Civil Construction and EPWP Programs:

Anda Global Management aims to be the premier partner in civil construction and labor intensive programs under the National Department of Public Works (EPWP). With our expertise, innovation, and commitment to excellence, we drive positive change, uplift communities, and deliver exceptional results. Join us as we lead the way in transforming the landscape of construction and EPWP initiatives.

Empowering Previously Disadvantaged Groups:

We are dedicated to the growth and development of previously disadvantaged groups by providing skills training and opportunities. Through empowerment initiatives, we strive to create a more inclusive and equitable society.

Creating Meaningful Employment:

Our goal is to provide full-time employment to at least 500 individuals by the year 2030. By offering stable and rewarding career opportunities, we contribute to economic growth and upliftment within our communities.

Exceeding Project Supervision Expectations:

With a focus on meeting the project supervision needs of our customers, we ensure meticulous attention to detail, efficient coordination, and superior quality control. Our commitment is to deliver exceptional results that surpass expectations.

Partnering for Success:

We believe in the power of collaboration. By forming partnerships and joint ventures with experienced companies, we can undertake large scale projects with confidence, leveraging our collective expertise for optimal results.

Empowering Small Businesses:

We actively engage in subcontracting with small companies, aiming to empower them and foster their growth. By providing opportunities, support, and resources, we contribute to the development and sustainability of these enterprises.

The Anda Global process

Pre-Construction

The most crucial element of any successful project is to identify its goals and objectives. This phase is one that needs to be structured to result in a well-defined outcome. To ensure the feasibility of your project and its profitability, the expertise of a competent construction manager can go a long way in supporting your success. It's best to seek consultations at the very early stages of project definition and even during design and development stages. When your expectations are aligned and reasonable, you eliminate any risks of missteps and mishaps during the implementation phase, which can be costly to revert. Not to mention, they lead to unnecessary delays. At Anda Global , we mitigate your anxiety by assessing every aspect of your project. From analyzing the potential of new spaces to creating control budgets and all the way to developing critical path schedules, we corroborate that every step you take drives limitless value to your business. Our precise pre-construction services include:

- Site Assessments
- Establishing Project Control Budgets
- Developing Critical Path Schedules
- Building Mock-Ups for Decision Makers' Review
- Value Engineering
- Pre-Ordering Identified Long-Lead Items
- Obtaining Procurement Permits
- General construction

General Contracting

We wholeheartedly believe that fixed price contracts are only as good as the documents detailing and defining the project's scope of work. Accordingly, the pre-tender stage and preparation of contract documents must be done with high attentiveness to portray a full, complete picture and understanding of the work scope. At Anda Global , we would be happy to thoroughly review all your trade tender packages and verify the efficacy of the key aspects of the project scope. We assess your project-specific documents, whether they include bids, proposals, or tender documents, drawings, project manuals, or more, to ensure your cash flows are perfectly optimized for the task at hand By opting for Anda Global as a general contractor, you're guaranteed due diligence in transforming your design vision into a reality. Not only do we become responsible for the day-to-day overseeing of your construction site, but we also go the extra mile of managing your vendors and trades. We're up to the responsibility!

Services

Anda Global provides a range of services that end up structuring a winning formula for tackling and managing your construction project effectively. Our general work scope includes: Civil Works (including steel and concrete works) High-End Finishing General construction Landscape Works Electrical Works Plumbing Works HVAC Works (including energy saving solutions) Smart Home Solutions

Organisational Chart

Despite the diversity of our backgrounds and occupied positions, at Anda Global , we share one element in common every team member is driven by motivation. Guided by our passion, we relentlessly seek to be thought-provoking and are in continuous dialogues about the future of our industry and business. By always opting to take the long-term view of envisioning our operations rather than a short-sighted approach, goal-oriented behavior is instilled in every one of us. From the lowest position to leadership ones, our mutual respect for one another opens limitless channels of communication, high morale, passion, and loyalty. Our employee management bonds are what empower us to deliver superior customer service to our clients, stemming from our internal people.

Glimpse of Our Projects

With extensive expertise through a broad range of diversified projects, we're adequately equipped to cater to projects ranging from 500 sqm-50,000 sqm in swift turnaround times, catering to the corporate, hospitality, and retail sectors, in addition to catering to high-end finishing for villas via fast track, high quality, and high-end construction. In all cases, you'll never have to cease your operations or terminate your current projects. Our dedicated team goes the extra mile of ensuring that your business is operating as it usually would while your project is simultaneously in the works and making progress.
